Dear Sir/Ms.:

In response to a Restriction Requirement mailed September 27, 2004, Applicant elects claims 1 – 16 of group I and withdraws claims 17 – 22 of group II.

It is however noted that, contrary to Examiner's assertion, not every claim of group II requires the electrodes be formed by sputtering.

Applicant believes that the above is fully responsive to the Restriction Requirement. If for any reasons the Examiner believes a telephone conference would in any way expedite resolution of any pending issues, the Examiner is invited to telephone the undersigned.

Respectfully submitted,
